

## Polycom PVX (Version 6) Activation

1. The PVX software can only be activated once it has been registered/activated on the Polycom website ([www.polycom.com](http://www.polycom.com)). A username and password need to be set up first.
2. Activate software by selecting the **i** in the top left corner of the window.

3. Select Activate.

4. Type in the License Number from the back of the software box. The Activation Key Code is provided once the PVX software has been activated via the Polycom website. Record the activation code and keep it with the software.
